Normandy Real

Frontend Developer, Database Administrator

normandy.real@gmail.com

Summary

I'm a mainframe professional with over 12 years of software engineering and 5 years of database administration experience. With a keen interest in modern web and related technologies, I completed Udacity's Front-end Developer Nanodegree Program. Using the practical experience from the program and my strong technical background in software development, I am exploring opportunities to shift into a frontend engineer. I'm a fast and eager learner and works well alone or with a team.
